VCSQI/VHHA Readmission Workgroup Updates

Having joined forces with the Virginia Hospital and Healthcare Association (VHHA), the Readmission Workgroup lead by Robert Lancey, MD (Sentara Rockingham) is well on their way to enhancing the 2016 VCSQI Readmissions Protocol. After reviewing the latest trends and research, the team has begun creating a robust set of recommendations to reduce readmissions after 30 days.

Through the group's discussions, several members of VCSQI have shared their strategies that contributed to their efforts to mitigate 30-day readmission rates. This discussion gave birth to an initiative called "Strategies for Change" where members of VCSQI recorded videos documenting their strategies for reducing readmission rates.

The first Strategies for Change interview is with Robbin Shifflett, BSN, RC-BC from the University of Virginia.
